ABOUT

Fall of Damascus is a heavy metal band from Hollywood, California. Formed in 2025, the band blends tight, groove-heavy riffs with raw aggression to create a sound that makes you want to move.

Since getting started, they've played shows across Southern California, including legendary venues like the Whisky A Go Go in West Hollywood and Chain Reaction in Anaheim. Each member brings their own style to the band, from crushing rhythm guitars and soaring leads to powerful vocals and a rhythm section that keeps everything driving forward.

With a debut EP on the way, Fall of Damascus is looking to build momentum, play bigger stages, and bring their take on heavy metal to as many people as possible.
